# **Constitution of the Kansas City Area Healthcare Engineers**

## **Preamble**

Whereas it is determined that in forming an Association with the following purposes, it will be to our mutual benefit, as well as to that of the Area Healthcare Facilities, we the Healthcare Engineers in forming our Association declare that: This organization known as “Kansas City Area Healthcare Engineers” was founded with the following purposes as its main objective:

1. We pledge ourselves to exchange information, render assistance whenever possible, and to foster a better fellowship among those in the field of Healthcare Engineering.
2. To create a mutual understanding between the Management and Maintenance of Healthcare Facilities and foster an environment where the best business practices of Support Service functions contribute to the profitability of healthcare organizations.
3. To give the comfort and welfare of your facilities’ patients and guests your first consideration.
4. To maintain an educational forum where specific and related problems may be presented, discussed, and best business practices shared among our members.

With these declared purposes, we organize “The Kansas City Area Healthcare Engineers.”
