(Kansas City Area Healthcare Engineers)

Healthcare Facilities & Engineering Certificate Series Scholarship Application 2024

KCAHE is offering four (4) \$300 scholarships for current members to attend the Healthcare Facilities & Engineering Certificate Series powered by Johnson County Community College. The series includes 32 hours of training from industry professionals focused on the skills needed for hospital operation. The purpose of the scholarship is to provide training resources to local Healthcare Facilities Operators.

Scholarship will cover 24 hours of the program – classes from May through November.

Interested individuals must submit an essay stating why they are applying for this scholarship and why they are interested in further developing their skills as a hospital operator. Proof of enrollment in the complete series will be required to obtain the scholarship (Distribution will be via a promo code at checkout for discount). Attendance is preferred at all sessions. If schedules will not allow attendance at all sessions, please include commitment narrative in the essay.

Essay should be 500 words or less.

All applications must be accompanied by this form and are due back to KCAHE by March 31, 2024.
